

### Print Prices<sup>†</sup>

I am very excited to offer superb prints at very affordable prices. I offer two finish options, Luster and Metallic. I love the stunning clarity and quality of both. Your prints, except wallets, will be professionally mounted on 1/16" mount board. In addition, I am offering two additional mounting upgrades: Foam Core Standouts and Gallery Blocks. On page two you will find descriptions and pricing of each.

The order form is on the last page. Once I have received your order with payment, I will place the order with my lab. We will setup a convenient time for you to pickup your prints once I have received them from my lab. If you would rather they be shipped to your address, simply include the address on the order form along with the shipping charge. If your list is larger than will fit on the order form, simply print the form again and continue with your order.

#### Finish Options:

##### Luster

Luster prints are printed on Kodak Endura Premier photographic paper, Kodak's most popular professional paper. It is a traditional E surface (matte) paper, has a luster finish and is excellent for realistic color saturation and color accuracy as well as neutral flesh tones.

##### Metallic

This particular finish has glossy and metallic appearance creating images that are described as "Chrome on Paper". It is sure to punch up any photo that demands a dramatic look with extreme sharpness, brightness, and color saturation. The metallic finish creates beautiful black and white images and through a special combination of laminating layers, prints appear to be three-dimensional with an ultra-bright background. These prints are printed on Kodak Endura Premier Metallic paper, which uses a proprietary combination of film laminate layers to produce a metallic or pearlescent look that give images a unique sense of depth and a glossy surface.
